

DAY 4 - BUILDING DYNAMIC FRONTEND COMPONENTS FOR MARKETPLACE

Zahida Raees

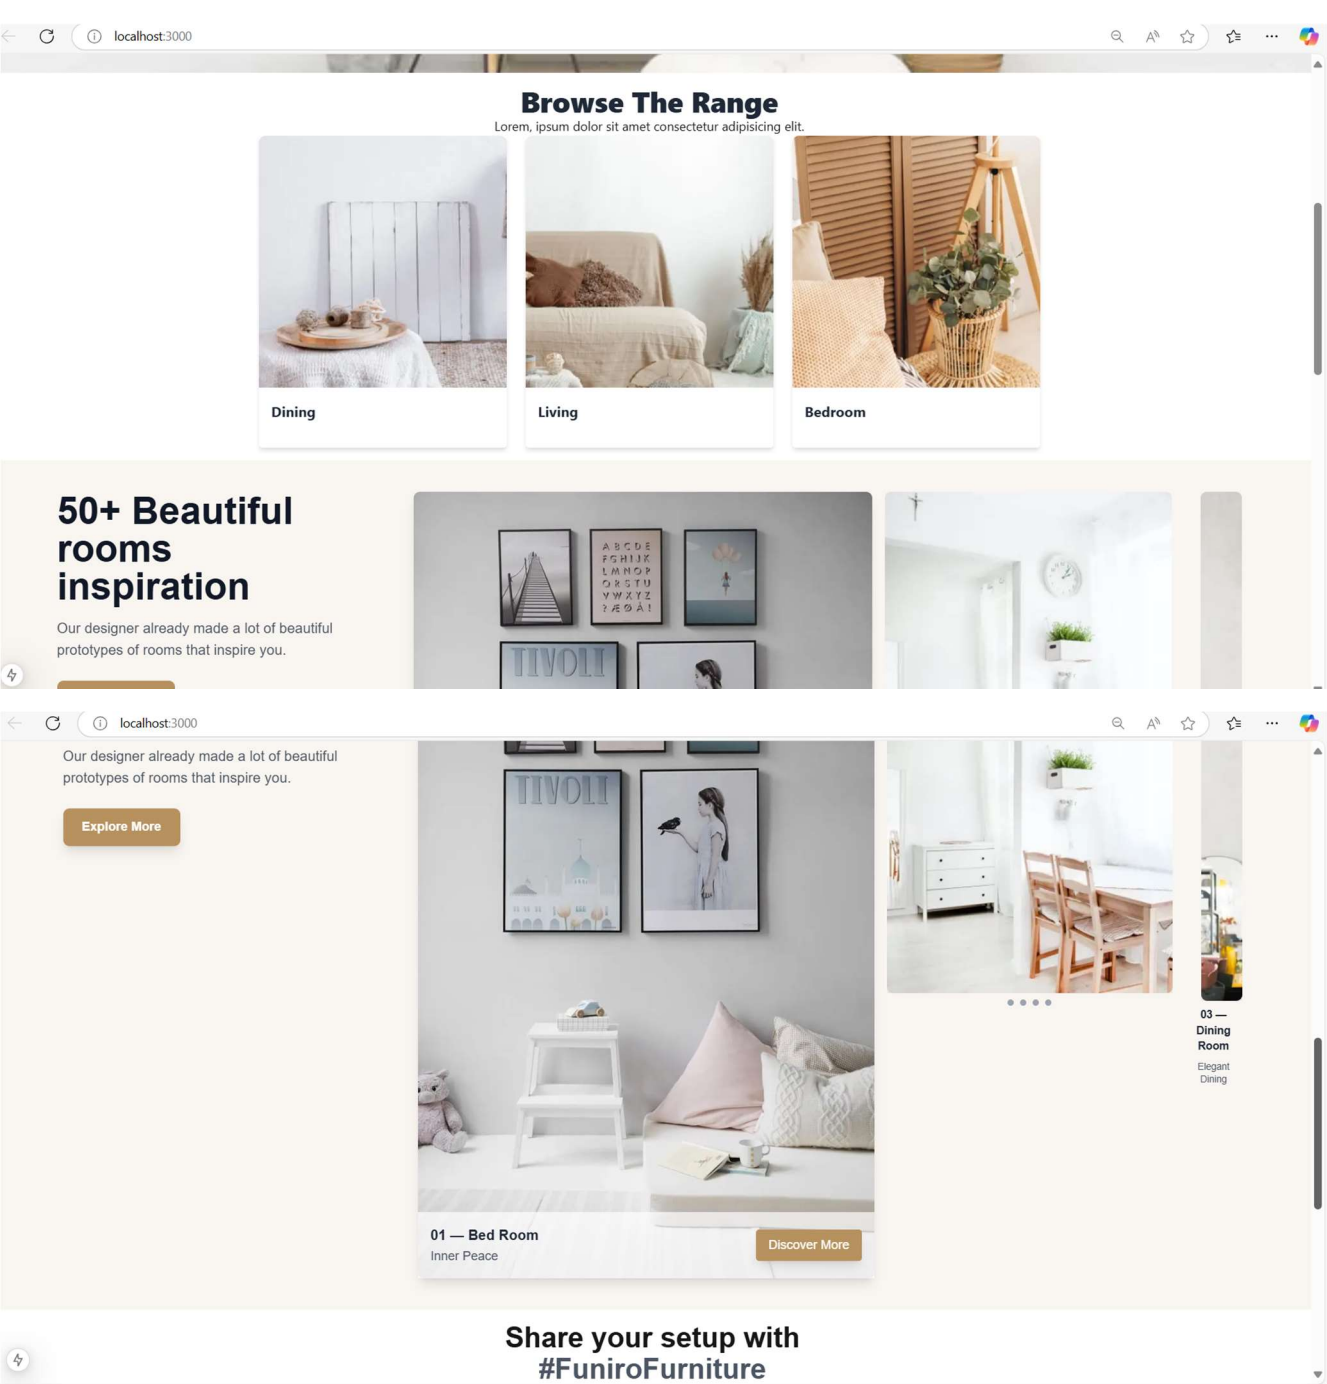

I have made copy version of template 6 and started working on it because my own marketplace require more time to make its UI and collection of product images and other details.

Here is my website’s landing page which is modular and responsive:

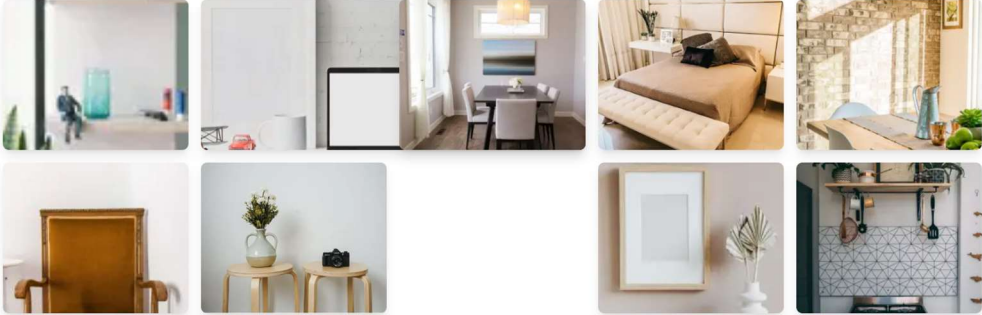

Here is landing page’s second section but its data is coming from local drive

I have removed its 3rd section because I have to

Browse The Range

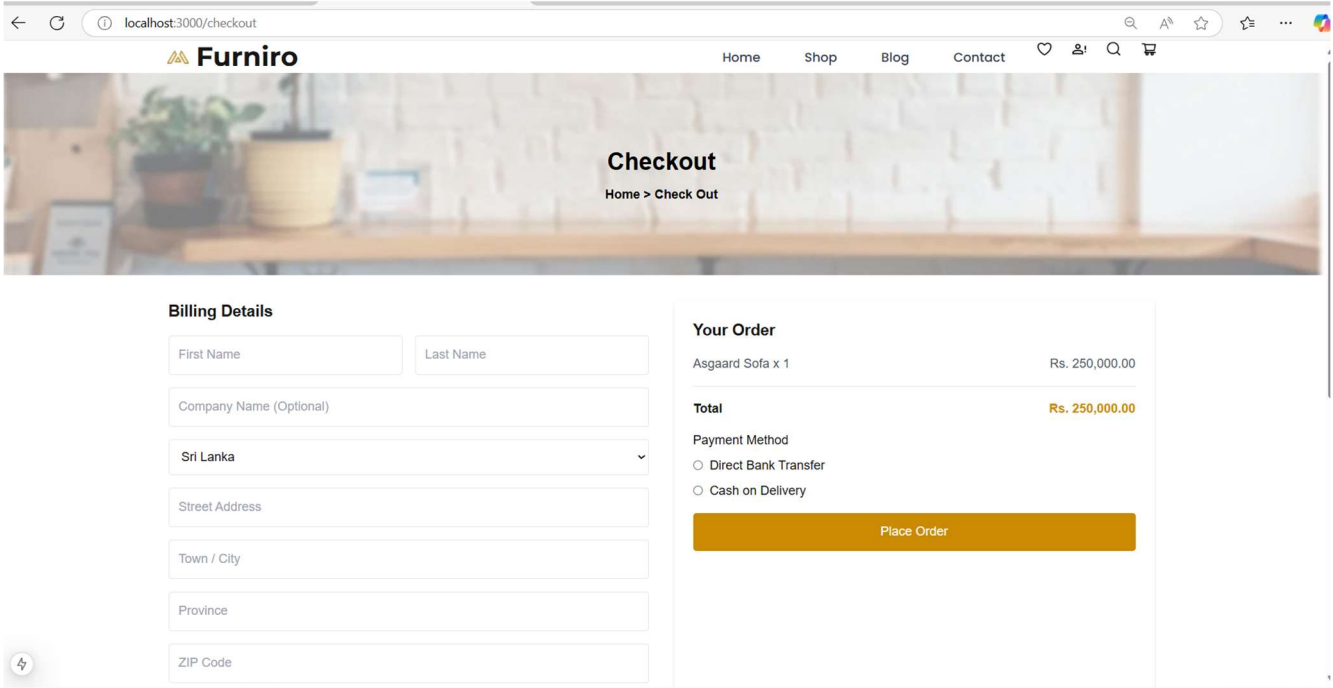

Lorem, ipsum dolor sit amet consectetur adipiscing elit.

Cart Page

Although this product is from local folder but it's clickable and button of check out is also working.

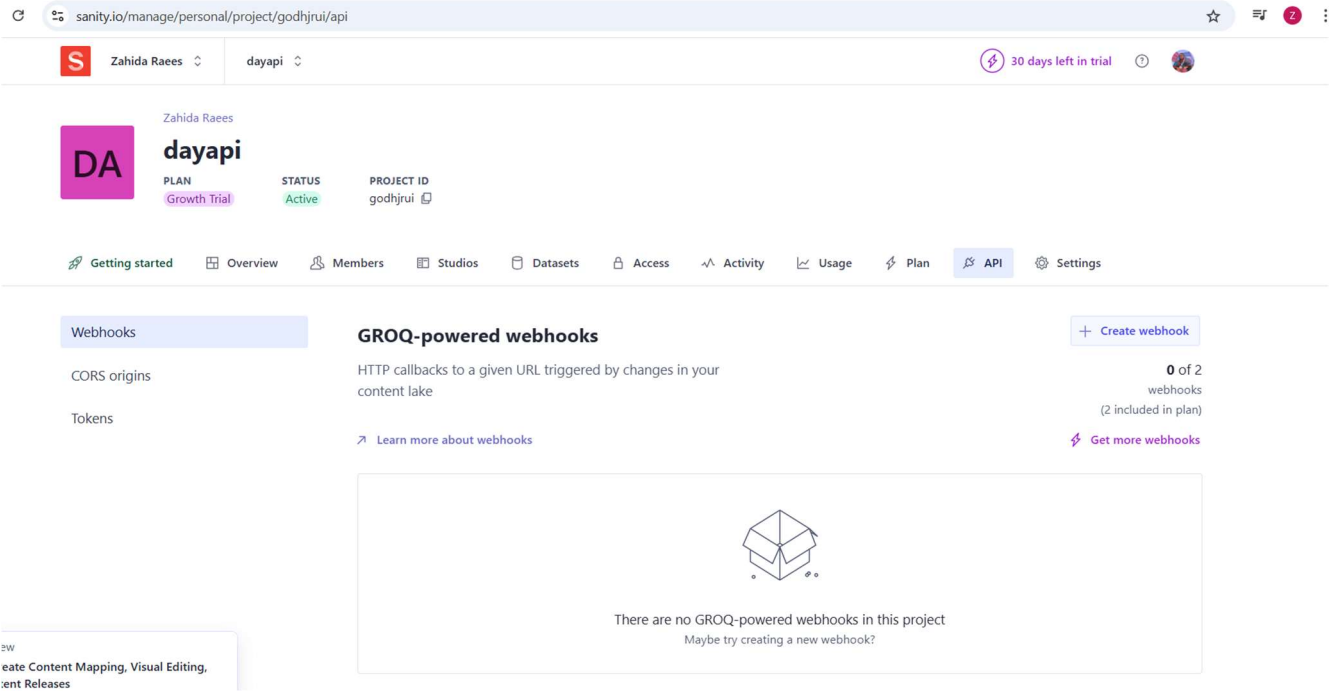

Day 4 ASSIGNMENT

For day 4 I have utilized sanity data which I imported from your mentioned document on day 3

First I have updated **.env.local** file with variables of product id, dataset and then token API from sanity project page. Here is the screen short of Sanity Project:

Sanity Project

Product Schema

Here is the screen product schema which I got from the pdf about template 6.

Product listing

Product listing on shop page with Product title, image, price, discount. Every image is clickable. Here header title is also dynamic means I am using single image for all pages excluding landing page. Using parameters of title and breadcrumb to update titles.

localhost:3000/shop

Title: Timber Craft

Price: \$320
Discount: 30

Title: Amber Haven

Price: \$150
Discount: N/A

Title: Bold Nest

Price: \$260
Discount: 30

Title: Bright Space

Price: \$180
Discount: 10

Title: Vase Set

Price: \$150
Discount: 60

Title: Wood Chair

Price: \$100
Discount: 10

Title: Retro Vibe

Price: \$340
Discount: N/A

Title: Sleek Living

Price: \$300
Discount: N/A

Title: Modern Serenity

Price: \$480
Discount: N/A
